Mrs. Margaret Feuille, president of Harbor Area District Nurses' Association, announced yesterday.

The \$10,000 grant, the national association informed CSNA executives, was the first awarded to any of the 48 state associations.

This study, to be conducted among a sample of California hospitals, should reflect conditions under every routine circumstance. Mrs. Margaret Feuille pointed out. "The long-range purpose of the nursing studies program is to provide improved patient care through better utilization of our nurse power," Mrs. Margaret
